

State of South Carolina

Governor's Proclamation

WHEREAS, each year, over 5,000 adults, generally between the ages of 40 and 70, are diagnosed with amyotrophic lateral sclerosis (ALS), a fatal neurodegenerative disease affecting nerve cells in the brain and spinal cord and better known as Lou Gehrig's Disease; and

WHEREAS, the symptoms of ALS progress from weakness of the skeletal muscles, especially those of the extremities, to difficulty in swallowing, talking, and breathing and eventual muscle atrophy, with the patient becoming a functional quadriplegic; and

WHEREAS, ALS does not affect a patient's mental capacity, and those affected remain alert and aware of the loss of motor function and the inevitable outcome of continued deterioration leading to death; and

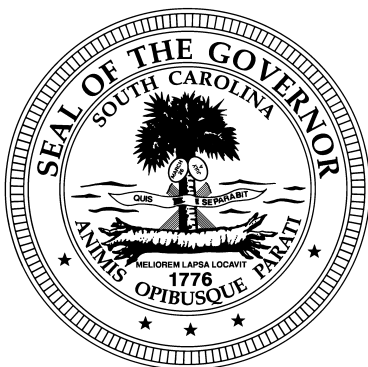

WHEREAS, on average, ALS patients survive for only two to five years following diagnosis; and

WHEREAS, ALS has no known cause, means of prevention, or cure.

NOW, THEREFORE, I, Mark Sanford, Governor of the Great State of South Carolina, do hereby proclaim May 2006 as

AMYOTROPHIC LATERAL SCLEROSIS MONTH

throughout the state and encourage all South Carolinians to work together to raise awareness of this devastating disease, its terrible effect on all those it touches, and the need for continued research into its causes, prevention, and cure.

A handwritten signature in black ink, which appears to read "Mark Sanford".

MARK SANFORD
GOVERNOR
STATE OF SOUTH CAROLINA
